

MACLEOD GAS SUPPLY CUT OFF—ICE JAMB IN WILLOW CREEK BREAKS SERVICE PIPE

LEGISLATORS IN TANGLED SKEIN OVER PROPOSAL RE-DISTRIBUTION

Edmonton, March 31.—The legislature now has both feet tangled up with the jumbled skein of redistribution, reduction in legislative membership, and cuts in the \$2000 indemnities.

Some days ago W. M. Davidson, Calgary, asked second reading for a bill proposing reduction in indemnities to \$1850 next year and \$1700 for the sixth and succeeding legislatures. This proposal was stood over and still stands. Monday B. G. Marshall, Calgary, moved his resolution to cut down the membership of the house from 60 to 45. On behalf of the government, R. J. Love Wainwright,

promptly offered an amendment to have the entire proposition turned over to a special committee of the house for investigation and report at the next session.

Debate Adjourned

Finally the house decided to lay the whole crossword puzzle aside for solution some other day. Attorney-General Brownlee adjourning the debate at six o'clock and the assembly devoting the night sitting to consideration of bills and estimates.

The Love amendment proposed also that the question of indemnities paid to members be reported upon by the same committee but Hon. C. R. Mitchell, opposition leader, claimed this particular suggestion was out of order inasmuch as the house had not yet decided what should be done with the indemnity bill of W. M. Davidson.

"FOR SALE" SIGN FOR GOVERNMENT HOUSE

Edmonton, March 31.—Tradition did not grieve the legislature with iron bands Monday afternoon when the members decided by a vote of 29 to 16 that the government should dispose of the lieutenant-governor's magnificent residence in this city, a recommendation for the sale of this property being proposed in a resolution submitted by W. M. Davidson.

The division cracked party lines to bits, though the government back benches registered almost solidly for the resolution, Premier Greenfield and Attorney-General Brownlee having but a handful of supporters in their opposition to the motion.

REPAIRS ARE QUICKLY MADE

The break in the pipe line that serves Macleod with its natural gas, which was broken by an ice jamb on Monday morning at 2.15 is now temporarily repaired, and Macleod is assured of a continued service until the break is permanently fixed.

The break was caused by a jamb of ice in Willow Creek, four miles north of Macleod, where the pipe line crosses over three feet thick, forced the eight inch service pipe that laid at the bottom of the stream away from its moorings and consequently disconnected the gas supply from Macleod.

Manager Pollard, the local gas man, was right on the job and within a short time from the requisition of the service of the company, the broken line of the company, with its gang of workmen, were quickly on the job, and with a local bunch of helpers, soon had the work going for temporary repairs, which happily enabled the resumption of service within 20 hours of the very serious break.

Chief Engineer Mellon arrived in Macleod on Monday night, and in an interview with the Times representative complimented the crew on the splendid work they had accomplished in supplying Macleod with gas service in the very short time that had elapsed since the break had occurred.

MORTGAGE SALE OF FARM PROPERTY

Pursuant to the directions of the Registrar and by virtue of the Powers of Sale provided by The Land Titles Act under a certain mortgage which will be produced at the time of the sale, there will be offered for sale by public auction at the Court House in the Town of Macleod in the Province of Alberta, on Saturday the 25th day of April 1925, at the hour of Twelve o'clock noon, the following property, namely: The South West Quarter of Section 7, in Township 7, and Range 26, West of the Fourth Meridian in Alberta, excepting thereout 1.95 acres or less for a roadway as shown on a plan filed in the Land Titles Office for the South Alberta Land Registration District as 3741; reserving unto His Majesty all mines and minerals and the right to work the same.

Terms of sale to be Twenty per cent cash at the time of the sale and the balance according to the terms and conditions to be made known at the time of sale or upon application to the vendor's solicitors.

The above property will be offered for sale subject to a sealed receiver's bid and free from all encumbrances, save taxes for the current year.

The vendor is informed that the above property is situated about 8 miles from Peigan Siding and that there is situated thereon a shingle roared shack 12 ft. by 15 ft., about 60 acres have been cultivated.

BONUS MOOTED FOR INCOMING INDUSTRIES IN THIS PROVINCE

Edmonton, March 27.—Power to encourage industries by means of fixed assessments on improvements only, is granted to municipalities in Alberta under the terms of a new Provincial Act, the draft text of which was furnished Friday morning to The Herald by Attorney-General J. E. Brownlee.

The fixed property assessment, however, shall not be less than ten per cent of the actual value of the improvements, or of the approximate cost of such improvements as agreed upon between the person to whom the aid is granted and the municipality.

Mr. Davidson said he in no way desired to abolish the office of lieutenant-governor of the province through the agency of the resolution; he realized that the legislature had no jurisdiction in such a matter, and it would not be advisable to effect a change even if they had the power. However, he could not see the sense of keeping up a "Provincial Buckingham Palace" at the expense of a young province like Alberta and where economy was so vitally necessary in the conduct of affairs at the present time.

Chief Engineer Mellon has instructed Foreman Harrison to rush the repair work until the damage incurred is permanently fixed, which in the opinion of the foreman will take from three to five weeks with a full gang on the job.

RAISE SILVER FOXES

If you could buy a pair of the best quality prolific Government Registered Silver Black Breeding Foxes on easy terms of payment until November 1st, 1927, for \$360.00, would you be interested?

Fox Farming pays bigger profits than any other industry we know of—the returns are quick and the profits large. Silver Black Foxes are the greatest mortgage lifters that we know about. They produce yearly returns and are not affected by drought, hail or frost.

Electors Must Decide

Another precaution in the bill is a proviso that any bylaw providing a fixed property assessment for an industry must be passed by a three-fourths vote of the city council, and then the bill becomes operative until it has received the assent of two-thirds of electors qualified to vote on money bylaws, who vote thereon.

The division was as follows:—Messrs. Hoadley, Ross, Baker, Love, Claypool, Forster, MacLachlan, Cameron, N. S. Smith, Shield, Carson, Moore, McKeen St. Arnaud, Anderson, Buckle, Farquharson, Peterson, W. C. Smith, Stringham, G. N. Johnston, P. Enzenauer, Proudfoot, (Government), Tobin, Dechene, Giroux (Liberals), Davidson (Ind.), White, Christoffers (Labor).

PRAMIE SUMMER RESORTS FEATURED IN NEW BOOKLET

Outside of the prairie provinces themselves, the idea has prevailed for years that within the borders of Manitoba, Saskatchewan and Alberta, there was little to be found in the way of watering places were visitors to this country could find it worth while to stop off and enjoy themselves for a day. And until the present year little has been done to offset the growth of such an erroneous idea.

UNEMPLOYMENT CRISIS IS DEBATED

Edmonton, Alta., March 31.—Premier Greenfield and Alex. Ross, minister of labor, listened all Monday morning to vivid descriptions of unemployment conditions in the province from a deputation of unemployed interests; for another hour or so Monday afternoon they heard the same question discussed on the floor of the legislature. P. M. Christophers, Labor, Rocky Mountain, moving the adjournment of the house to discuss the situation and charge the government with neglect in dealing with the crisis in the coal mining fields.

TREATY MONEY SURE FOR INDIAN FETE MINISTER PROMISES

In a letter from the minister of the interior and supt.-general of Indian affairs for Canada, Hon. Chas. Stewart, received on Monday, March 30, the minister endorses the convention and celebration to be held by the Indians of Canada in Macleod on June 30 and July 1 to 3, and that he will if possible be present to open the celebration on July 1. He considers it an honor to be thus invited. He also states that the treaty payments will be made to the Indians on a day of the week previous to July 1.

ELECTION IN GERMANY VOID

Berlin, March 30.—Final returns from yesterday's presidential election in Germany announced this morning, show that none of the seven candidates received a majority as required by a constitution, making a second election necessary.

TRUTH, HONESTY AND DECENCY HELD UP AS PRESS STANDARDS

Madison, Wis., Mar. 30 (Special).—Summing up his many years of study of the press, Prof. Willard Grosvenor Bleyer has presented to Wisconsin weekly newspaper editors and publishers a "creed" characterized by this declaration:

CONSERVING FERTILITY ON PRAIRIE FARMS

During the first few years of cultivation and cropping, Western prairie soils lose fertility at a rapid rate. This is more particularly true when summer fallowing is practiced. Investigations by Dr. F. T. Shutt, the Dominion Chemist, carried on over a series of years, have proved, however, that as time goes on the loss of fertility occurs at a less rapid rate.

THE GERM MURDER

Chicago Courts will try William
Shepherd for the murder of young
William McClintock. It is alleged that
Shepherd caused the death of Mc-
Clintock by feeding him a tube of
typhoid germs in his drinking water.

That should interest those gentle-
men who are not convinced that dis-
ease is caused by germs.

It should also interest those many
millions that are amazed at the ad-
vances of science during the past fifty
years.

Science, discovering bacilli and
methods of killing them, has worked
a great blessing for the human race.

But at the same time, by that same
discovery, it has almost made possible
the "perfect murder." By the use of
disease germs a skilled operator might
murder a hundred times without even
being suspected. Only stupidity and
greed brought Shepherd's discovery
about.

Man can use science or he can
abuse it. And, unless his moral na-
ture progresses at least half as fast
as his intellect, he will abuse his
scientific knowledge.

To put a vast intellect into a
morally imperfect race is like handing
a gorilla a spiked club and teaching
him how to use it.

Morals and knowledge must ad-

vance together. The church must be

as efficient as the laboratory.

Certain gloomy persons see a tremen-

dous conflict between science and

religion. The truth is that the future

of science is absolutely dependent up-
on religion.

For, without moral purpose,

knowledge and intellect burn them-
selves out.**THE "BLESSINGS" OF INCOME TAX**

Canadian-born Senator Couzens, of
Michigan, is the latest subject of
Uncle Sam to discover what a weird
and wonderful thing is the American
income tax.

The Senator has lately been held
up for an additional assessment of
\$10,000,000 on shares he owns in the
Ford Motor Company, after having
been told, previously, that this slice
of profits was safe.

He claims that the additional
assessment is the work of political
enemies.

The American income tax, based on
the old Gladstonian tax and incor-
porating some features of the Italian
system, is the most intricate income
tax system on earth.

Its very intricacy has been held up
as a blessing to business. It has been
said that thousands of American firms
never dug into the accounting details
of their business until forced to do so
by the tax.

In six months, however, the tax
is credited with having stimulated
credit, accountancy and therefore
prosperity.

The curious thing about it is that
people like Senator Couzens do not
seem to appreciate the happy news
that they are wealthier than they
thought they were.

Painless taxation, like painless
dentistry, still seems to be more
theory than fact.

OUR ANNUAL THRILL

Excavators have dug into another
tomb in Egypt.

They say the tomb is probably that
of Seneferu. Or, if it is not Seneferu,
it may be Cheops. Or, if it is not
Cheops, it may be a high officer of
state, perhaps the royal bootlegger.

At any rate, this tomb contains
somebody who lived and died between
3000 and 6000 years ago. And that
means that the "civilized" world will
not be cheated out of its annual thrill.

During the coming summer, Egypt-
ologists will prow through this an-
cient vault and dig out everything they
can find. A tense world will be told
about the deceased's laundry mark.
Breathlessly waiting millions will
read columns of guff about the dead
man's underwear.

If the press agents can only work
in a curse or two, the thing will be
complete.

If these poor old Egyptians can
look down from the bosom of Osiris,
or wherever good Egyptians go to,
and see their annual ghastly perform-
ance, it will make them very sad to
think that their only gift to posterity
was a little mysterious thrill for a
few thousand idle minds.

MACLEOD METHODIST CHURCH

(George D. Armstrong, Minister.)

The services next Sunday will be
conducted by the Rev. Wesley Bain-
bridge, of Fishburn, who is the young-
est of three brothers, all of whom are
serving in the ministry of the Meth-
odist Church. The older brothers
rendered splendid service during the
great war, Joseph the elder won the
military medal for bravery, Sidney
was wounded severely but happily
survived and although crippled phys-
ically is able to continue his work for
the church in Alberta; Wesley, the
youngest gives evidence of being able
to live up to the reputation of his
brothers, and has rendered excellent
service at Fishburn.

On Good Friday evening, April 10th,
the Methodist Choir will render the
Cantata "The Passover," by Ashford.
This is the second Cantata to be sung
by this choir written by this composer,
the other, it will be recalled, was "The
Manger Prince." The music is of the
same high quality as the former one,
and it is hoped that the choir will also
do splendidly. Those doing the solo
work in it are Mesdames Brewster
and Farnet, and Messrs Ridley and
White; Miss Griffin will assist with
the cello. It is expected also that a
display of lantern slides depicting
scenes in Egypt and the Holy Land
will furnish a fitting background for
the musical production. Following is
the program of the Cantata: 1—Bass
solo and chorus, "O Lord Deliver Us;"
2—Soprano and alto and chorus "Be-
hold Egypt is Fair;" 3—Soprano and
alto duo "The Soft Sighing Winds;"
4—Soprano and bass solo and chorus
"Knowest Thou the Law;" 5—Soprano
and tenor solo and chorus "My Spirit
Falleth;" 6—Trio, Tenor, soprano and
bass, "Fear Thou Alone Jehovah's
Wrath;" 7—Tenor, bass, solo and
chorus, "Woe Unto Israel;" 8—Alto
solo and chorus, "Within Each Lowly
Hebrew Tent;" 9—Tenor solo, "O
Israel Go Forward;" 10—Chorus "The
Cruel Sea;" 11—Tenor and bass solo
and chorus, "Peace, O Israel;" 12—
Soprano solo and women's chorus
"Sound the Loud Timbrel;" 13—Tenor
and bass solo and chorus, "The Lord
Hath Triumphed Gloriously."

There's always a way for the dar-
ing. Musculage will stop falling hair.

Old Job got by, but he didn't have
a kitchen faucet that dripped all night.

Getting old is just a matter of
using up the visible supply of thrills.

Too many cooks spoil the broth.
Also the steak. And everything.

The hard part is to be good without
envying the naughty.

CAPITAL GOSSIP AND PROV. NEWS

Mineral Production in Alberta

Mineral production in Alberta
totalled in value \$22,749,662, in the
year 1924, according to the prelimi-
nary report on mineral production
issued by the Dominion Bureau of
Statistics. This is a decrease from
the production of the previous year,
accounted for chiefly by the coal strike
during the early part of the year. Al-
berta in 1924 dropped to fourth place
in mineral production in the provinces,
having previously held third place.

Coal production for the year was
valued at \$19,161,209 compared with
\$28,018,303 in 1923. Clay products
were valued at \$539,581 compared
with \$590,555 in 1923.

Alberta runs a very close second to
Ontario in the production of natural
gas. Alberta's production in 1924 hav-
ing been 7,100,000 thousand cubic feet
while Ontario's production was 7,422,-
512 thousand cubic feet. These two
provinces produce almost the entire
Canadian production of natural gas.

Alberta's production of lime in
1924 was valued at \$36,126 and the
production of stone at \$19,317 in
1924.

Since the year 1914, a total of 531
tons of tar sands have been taken out
of the deposits near McMurray for
experimental purposes. The total
importation of asphalt into Canada
was 18,070 tons in 1924.

Dates for Corn Show

Dates have been set for the corn
show being planned by the Lethbridge
board of trade the coming autumn.
These dates will be November 17 and
18. Corn has come to be a substantial
crop in southern Alberta.

Bee-keepers Organize

The bee-keepers of southern Al-
berta held a meeting recently and
organized the Alberta Bee-keepers
Association. There are now nearly
200 bee-keepers in the province, and
last year some 55,000 pounds of
honey was produced.

Pure Seed Oats Available

The provincial government co-
operative seed plant at Edmonton has
a considerable quantity of registered
seed oats available at prices now
ranging from 75 cents to \$1.00 a
bushel. It is possible that these prices
may go higher, and farmers in Al-
berta are urged to make their ap-
plications for seed oats at once, as a
large number of enquiries for these
oats is being received from outside the
province, and the government is
anxious that Alberta farmers have
the first opportunity of securing them.

New Statistics Book

A new booklet has been issued by
the publicity branch of the depart-

ment of agriculture graphically de-
scribing by charts and statistics the
development of the province in agri-
culture and in other lines since its
inception in 1905.

Broad-casting Alberta Talks

The publicity branch of the pro-
vincial government is now broadcasting
each week, from the broad-casting
station of the Edmonton Journal, in-
struction talks on the province of Al-
berta. Three of these talks have now
been given. They are broad-cast each
Thursday evening at ten o'clock.

Wheat Shipments

Wheat shipments from the Alberta

divisions of the two transcontinental
railway companies for the 1924-25
season have totalled to date approx-
imately 58,861,000 bushels. Making
allowance for the shipment of wheat
from Saskatchewan points on the Al-
berta divisions, the total for Alberta
would be approximately 48,000,000
bushels. The largest shipments have
been made from the Lethbridge divi-
sion, which comprises the greater part
of southern Alberta and from which
division the wheat shipments have
totalled to date 20,400,000 bushels.

The Allies are lucky. If Germany
had confessed actual defeat, think of
the loan she would have demanded.

Another good way to keep public
business honorable is for private
business to set the example.

Correct this sentence: "Of course,"
said the neighbor, "we'll be glad to
keep the children for you."

All diseases are disappearing." The
itch, however, has consolidated its
position in the palms."

Wouldn't it be awful if this country
should need saving some time between
election years?

**Easter!****Swift's Premium—The National Breakfast**

In thousands of homes in Canada, Swift's Premium, as the world's
highest standard of quality, is served all year round. But for Easter
Morning this supreme quality Bacon has an added appeal—Swift's
Premium has become almost the national dish on this bright feast
day—when nothing but the best is adequate.

If you have not experienced the delicious flavor and uniform good-
ness of Swift's Premium—this coming Easter Morning would be a
fitting occasion on which to try it.

Swift's Premium Hams and Bacon

Be careful to get Swift's
"Premium" when you buy
Bacon or Ham—make sure
of it this coming Easter
Morning. Order from your
Butcher or Grocer.

Look for this blue identi-
fication tag when you buy a
whole ham or when you buy
a slice.

**For Mothers—"FRY'S"**

For true nourishment in delicious form FRY'S COCOA is supreme. Make
it this way and you will find it most appetizing and digestible. To 3 good
teaspoonfuls of Fry's Cocoa add three spoonfuls of sugar, mix well. Then
add one half cup of boiling water and mix thoroughly. Add two cups of
boiling water and boil very slowly for 5 minutes, stirring occasionally. Then
add milk or cream to taste. This will give you Cocoa at its best.

REMEMBER, NOTHING WILL DO BUT FRY'S

THE BALTIC QUESTION

Amid all the larger European and Pacific problems which have preoccupied the thoughts of men since the war, the Baltic question has received but little attention. Yet in its way and in due time it is as likely to move into the foreground of the international stage as many apparently more important issues. It has been very prominent in the earlier history of Europe. It was in most peoples' thoughts before the Great War. And it is bound to come up again.

The war itself profoundly changed the situation in the Baltic region. Before 1914 there were four Baltic powers: Russia, Germany, Sweden and Denmark. Today there are nine: Russia, Finland, Estonia, Latvia, Lithuania, Poland, Germany, Sweden and Denmark; and because of the close association which now exists between the three Scandinavian powers, Norway ought to be added too, though it does not strictly front on the Baltic Sea. Of these, four have been carved out of Russia, and one, the Polish corridor to Danzig, out of Germany. Before the war the Baltic problem turned almost entirely on the balance of power between the Russian and the German empires, with Scandinavia looking anxiously on. Today the Baltic question is whether the settlement made in 1919 can be maintained and the new states preserve their independence in the years to come.

HOMEMAKERS' CORNER

(Conducted by Miss Alice L. Webb, State College of Washington.)

Pies of Many Kinds

One does not have to live in the "pie belt" that runs from New England down through New York and Pennsylvania in order to be fond of that sort of pastry. Many a household feels it has not been really well fed unless it has had its piece of pie at least once a day. Of course those who are trying to "reduce" or who are laboring to clear up a complexion ruined by unwise diet and irregular hours, may have a "ca' canny", as the Scotch say. But the rest of us will probably be interested in what the slangy small boy calls "a flock of yum-yums."

Quaker Apple Pie

I do not know why this is called "Quaker" pie. I only know that Ida Bailey Allen, known as quite an authority, calls it so. Line a pie tin with crust, quarter a pint of tart apples, and make a layer of them, spread on and in the tin. Cover with a cup of brown sugar, dot over with a tablespoonful of butter in bits, add 3 tablespoons of water, sprinkle with a teaspoon of cinnamon, and cover over with a crust, and dust it with granulated sugar.

Filling for Orange Pies

Cleve Carney, well known Chicago chef, gives this recipe for the filling for four orange pies: Grate 2 oranges into 1 1/4 quarts of water, add 10z. butter and let it boil. Mix 1 lb. sugar, 1 lemon (juice and grated peel), 3/4 oz. cornstarch and 8 egg yolks beaten creamy, and stir gradually into the boiling orange water. Cook until thick, then pour into baked pie shells and cover with a meringue made of the egg whites.

Eel and Oyster-Pye

"Eel and Oyster-Pye" is one of the dainties described in the House-hold Companion of 1705, as follows: "Make Pot Paste, and lay it into your Dish; then take great Eels and flay them, cut, and cut them in pieces, wash and dry them; then lay some Butter in your pie, and season your Eels with some Pepper, Salt, Nutmeg, Cloves and Mace, and lay them in; then cover them all with great Oysters, then put in more of your beaten Spices and Salt; then cover them with Butter, and put two or three spoonfuls of White-Wine; so close it, and bake it, serve it in hot."

Cheshire Park Pie

Another English dish, over a century old, is this one, Cheshire Park Pie. The Frugal Housewife, published in 1811 at Manchester, says: "Take the skin of a loin of pork, and cut it into steaks. Season them with pepper, salt and nutmeg, and make a good crust. Put into each layer of pork, then a layer of pippins, pared and cored, and sugar sufficient to sweeten it. Then place another layer of pork, and put in half a pint of white wine. Lay some butter on the top, close your pie, and send it to the oven. If your pie is large you must put in a pint of white wine."

Rhubarb, Peach or Apple Pie

Rhubarb is "good for what ails you" in spring, so a rhubarb pie is not out of place at this time of year. Here is a recipe by Alice L. James, who has a nice little book called "Catering for Two, Comfort and Economy for Small Households." She says: "Rhubarb pies need an upper and lower crust, but peach and apple pies are delicious if made in deep saucers with only a round of upper crust laid lightly on top of the fruit, and not pinched to the edge of the saucer."

Peel and cut the fruit, in slices, fill the saucers, sprinkle with sugar (2 tablespoons for each green apple, and more or less according to the sourness of the peaches); dredge with flour, dust on nutmeg or cinnamon according to taste, and they are ready for the covers.

Peel and cut the pie-plant into inch pieces, and add 1 cup of sugar to 3 heaping cupfuls of rhubarb and a tablespoon of flour. Mix together and place on the pan with the under crust, cover and bind, and bake. Some cooks prefer not to peel the pie-plant for pies; the flavor is more delicate, however, if you do.

If cherries are used, they should not be stoned. If canned fruit is put in, the juice should be reserved, boiled with sugar and a little flour, and poured into the pie after it is baked.

S. Dak. Pastry

From the South Dakota extension workers comes this pastry recipe: Cut 1-3 cup cold lard with two knives into 1 1/4 cups of pastry flour in which 1/4 teaspoon salt has been sifted. When it looks like meal, add gradually enough milk to bind it, stirring lightly with a fork till it just binds. Then roll lightly on a board.

Pumpkin Pie 300 Years Old

We are told the custom of eating pumpkin pie really started in the British Isles over 300 years ago, when housewives cut a hole in the side of the pumpkin, removed the seeds, stuffed the cavity with apples, and baked the entire pumpkin. From this old beginning, they say, came our crusted pies. New England claims to have made the first crusted pumpkin pie. A proper pie holds its filling and its shape, and cuts smoothly.

You can't tell by the amount of nickel plating how many payments are yet due on the car.

At least you can build mansions in the skies without having your wife nag about closets.

You don't really believe in free speech unless you can listen while the opposition talks.

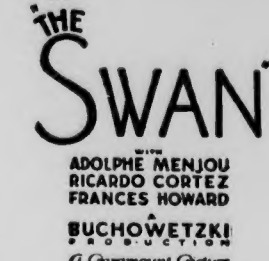

The final test of poise is the ability calmly to adjust a sock supporter in the face of feminine amusement.

Never despair. If the boy is no good for anything else, he may develop into a perfect lover.

A tightwad seems especially despicable when you must borrow from him until pay day.

The funny part is that gum chewers usually feel a little superior to tobacco chewers.

Education pays. Nearly all the great coaches are college graduates.

EMPRESS THEATRE NEXT WEDNESDAY AND THURSDAY.

you become disabled what about your Life Insurance?

"I HAVE always hesitated about increasing my life insurance because of the responsibility I would have to assume for the premiums," said a man who typifies a considerable class. "I always pictured myself in some situation, perhaps disabled through an accident, where I might be unable to pay the premiums."

But you may now insure against this possibility of future inability to pay your premiums. For a small additional charge the Mutual Life of Canada will issue your policy subject to a clause which provides that in case of total and permanent disability the Company will waive further premiums.

That is not all. Upon approval of proofs of disability, the Company will not only waive future premiums, but will pay \$10 a month per \$1,000 of assurance, so long as total disability continues.

And further, if the policyholder should die by accident the Company will pay double the amount of life insurance named in the policy. These new clauses are optional in all old or new Mutual policies if assured be over 15 or under 55 years of age.

LOCAL AND PERSONAL NEWS

A. Mathews of Calgary was a visitor to Macleod this week.

J. D. Matheson, barrister of Macleod, was in Calgary this week on legal business.

Mr. and Mrs. R. A. Clement, formerly of Granum, have now taken up their residence in Macleod in the house lately occupied by F. Benson, on 21st street.

P. D. Mellon, chief engineer of the Natural Gas Company, was in Macleod on Monday and Tuesday of this week. He was accompanied by Frank Harrison of Calgary and Supt. Winter of Lethbridge.

Dr. Elder, who is locating in Macleod to practice medicine, is residing with Mr. and Mrs. R. A. Clement until such time as his furniture arrives from the east, when he and his family will occupy the R. G. Mathews house.

Mrs. Whittle (nee Miss Nina Grier) was in Macleod for a few days this week visiting her father Mr. Curren Grier, and Mr. and Mrs. Ashley Grier. Mrs. Whittle's many friends were delighted to once again renew acquaintances. She will return to her home in Winnipeg on Friday.

Chauffeur Mathews of the Flying Squad of the Gas Company, was steadily on the job from early Monday morning until Tuesday night during the break in the gas service line here. The snow and mud he bucked with his Dodge truck during the snow storm on Monday morning, between the creek and town was the worst he has experienced at any time during his many years of driving.

Mrs. E. Forster Brown, who is president of the Rebekahs in Southern Alberta, attended an anniversary meeting of the lodge at Lethbridge on Wednesday evening. She was accompanied by Mesdames Pollard, Perkins, Shields and Clarke. The visitors were given a good reception and they are delighted with the pleasant time they spent with their sister lodge at Lethbridge. E. Forster Brown and H. V. Clarke were also in attendance.

There will be a meeting of the Macleod Local Council in the Parish Hall on Wednesday April 8th at 4 p.m. There will be nominations for officers of the National Council of Women. Mrs. O. C. Edwards will give an address on "The Aims of the League of Nations." Members of the Council are earnestly requested to be present. The meeting is open to all women, and it is hoped a number will avail themselves of this opportunity of hearing Mrs. Edwards speak on this great subject.

The Trade and Commerce section of the Board of Trade is endeavouring to have a Creamery located in Macleod, and with this end in view have this week forwarded to every farmer in the district a form containing a list of questions, whether a Creamery would receive their support and if so, the estimated yearly output of cream from their farm. It depends on the replies received whether a Creamery will be established, and the farmers should take advantage of this opportunity. Further forms can be obtained by making application at the Office.

OBITUARY

DEATH OF MRS. WILLIAM DAMON

Mrs. William Damon died at Macleod Hospital on Friday, March 27th, following a short illness. The immediate cause of death was bronchial pneumonia and although the deceased had been in poor health for the past year or more, her death came as a decided shock to her many friends and to the community generally.

The deceased Alice Jane Damon, who was sixty-three years of age at the time of her demise, was born in Indiana, and came to Southern Alberta from Washington. She was formerly the wife of the late James Coffey, and some years after his death became the wife of William Damon, well known rancher of Macleod district. The late Mrs. Damon and her husband have resided at the Circle Bar Ranch for the past 20 years.

Mrs. Damon is mourned by her husband, Wm. Damon, and a host of friends and acquaintances in Macleod and district.

The funeral was held on Saturday, March 28th, from the Methodist church, Rev. G. D. Armstrong conducting the service, and interment took place in the Union Cemetery.

Floral Tributes

Floral tributes were sent by the following: The husband, Heart; family, Pillow; Ethel and Edith Coffey; Cross; Mr. and Mrs. J. McFarquhar; Spray; Mr. and Mrs. Geo. McFarquhar; Spray; Mr. and Mrs. H. C. Winter; Spray; E. E. Cotton; Spray; Mrs. M. Whipple; Spray; Mr. and Mrs. J. L. McWhirter (Pincher Crk.) Spray; Mrs. Julia Johnson; Spray; Mr. and Mrs. A. J. McGowan; Wreath; Mr. and Mrs. W. E. Young; Spray; E. McNeil and family; Spray; Mr. and Mrs. A. E. Skelding; Spray; Mr. and Mrs. R. Cunningham; Wreath; Mr. and Mrs. R. L. Hackett; Spray; Alberta Lodge No. 3, A.F. & A.M. Wreath; The Rathwell Ladies Aid; Wreath; Rathwell School Children; and Young People; Wreath; St. Andrew's Ladies Aid (Macleod); Spray; Southern Alberta Pioneers and Old Timers' Association (Calgary); Wreath; Macleod Agricultural Society, Wreath.

FUNERAL OF LATE MRS. DAN GILLEN

On Saturday last at the R.C. Church Macleod, requiem service was held for the late Mrs. Dan J. Gillen, of Waterton, Macleod. The church was largely attended by the deceased lady's many relatives and friends, and the service was most impressive. After the service at the church the solemn cortege proceeded to the Catholic Cemetery where the last rites for the departed were observed.

The late Mrs. Gillen, who was the wife of Dan Gillen, who farms on a large scale 14 miles south of Macleod, was sixty four years of age and was born in Marmora Ont. She is survived by her husband, two daughters and two sons.

STILL ANOTHER ADVANTAGE FOR SMOKERS—THE VACUUM (AIR-TIGHT) TIN

Suitors of My Lady Nicotine Will Benefit by Recent Innovation

Nothing can ever replace the pleasure—the solace—the comfort and enjoyment afforded by Tobacco. But the charm of the leaf is largely the charm of its full rich flavor, and until recent years the perfection of this feature was often marred by the heat of stores and warehouses, especially during winter, and the dryness of the atmosphere during Summer, which dried the Tobacco out, and destroyed its original freshness and fragrance.

The chance of this taking place is now entirely eliminated by the famous vacuum (air-tight) tin. Whether a man smokes cut tobacco, or prefers to cut it himself as he requires it, or whether he chews tobacco, he can now be assured of securing his favourite brands in the same perfect condition as they left the factory. The richness of flavor, the delicate fragrance, the moisture, are all retained by this wonderful innovation, the famous vacuum (air-tight) tin, which is sure to bring increased enjoyment to all who smoke and all who chew.

The story of how the famous Sir Walter Raleigh first introduced Tobacco to civilization is common knowledge. But the leaf which he and his contemporaries indulged in was crude smoking to the brands enjoyed by smokers to-day. The history of the development of tobacco is a record of a long series of innovations, modifications and devices, all planned to make its use more enjoyable to the consumer. But probably none of these has been so great an improvement from the devotee's point of view, as the famous Vacuum (air-tight) tin, in which the Imperial Tobacco Company of Canada Limited is now packing several of their leading brands of cut smoking, plug smoking, and plug chewing tobaccos.

Correct this sentence: "That was my first horseback ride in years," said he, "but I can sit down without difficulty."
